Education

- | | |
|--|-----------------------|
| Tsinghua University , Computer Science and Technology | Beijing, China |
| • Institute for Interdisciplinary Information Sciences | Sept 2019 – Dec 2025 |
| • Advised by Prof. Wei Xu | |
| • Worked on fraud detection, graph neural networks, large language models, and multi-party computation | |
|
Tsinghua University , Computer Science and Technology | Beijing, China |
| • Institute for Interdisciplinary Information Sciences | Sept 2016 – June 2019 |
| • Advised by Prof. Wei Xu | |
| • Worked on fraud detection, graph algorithms, and visualization | |
|
Zhejiang University , Statistics | Hangzhou, China |
| • School of Mathematical Sciences | Sept 2012 – June 2016 |
| • Honor Degree, Advanced Honor Class of Engineering Education, Chu Kochen College | |

Experience

- | | |
|--|-----------------|
| Supcon, HGT Innovation Department , Researcher | Hangzhou, China |
| Building industrial intelligent agents based on HGT fostering steady and sustainable business growth | 2025 – 2026 |
| | 1 year |
| • Enterprise Intelligence | |
| • Hypergraph | |
| • Graph Foundation Models | |
| • Large Language Models | |
| • Ontology | |
