Education

- | | |
|---|-----------------------|
| Tsinghua University , Computer Science and Technology | Beijing, China |
| • Advised by Prof. Wei Xu | Sept 2019 – Dec 2025 |
| • Worked on fraud detection, multi-party computation, graph algorithms, and graph neural networks | |
|
Tsinghua University , Computer Science and Technology | Beijing, China |
| • Institute for Interdisciplinary Information Sciences | Sept 2016 – June 2019 |
|
Zhejiang University , Statistics | Hangzhou, China |
| • School of Mathematical Sciences | Sept 2012 – June 2016 |
| • Honor Degree, Advanced Honor Class of Engineering Education, Chu Kochen College | |

Experience

- | | |
|---|--|
| Supcon , Researcher | HGT Innovation Department |
| Working on Enterprise Intelligence, Hypergraph, Graph Foundation Models, Large Language Models, and Ontology. Building a suite of industrial intelligent agents based on HGT. | 2025 – 2026 |
| • Enterprise Intelligence | 1 year |
| • Hypergraph | |
| • Graph Foundation Models | |
| • Large Language Models | |
| • Ontology | |
|
Tsinghua University , PhD Student | Institute for Interdisciplinary Information Sciences |
| Worked on Graph Algorithms, Multi-Party Computation, Graph Neural Networks, and Fraud Detection under the supervision of Prof. Wei Xu. | Sept 2016 – Dec 2025 |
| • Graph Algorithms | 9 years 4 months |
| • Multi-Party Computation | |
| • Graph Neural Networks | |
| • Fraud Detection | |

Services

- | | |
|---|------|
| Session Chair - Privacy & Security Session | 2024 |
| CIKM 2024 | |
